What is Appian?

Appian is a low-code application that allows you to program a computer with little to no coding. Instead, Appian uses a visual interface, such as by drawing a workflow diagram. Low-code makes it much faster to build, modify, and execute enterprise applications. It delivers massive agility to organizations.

Why Appian?

Appian Certified is in Demand

75%

of development shops will be using low-code platforms by the end of 2021.

Appian Certified Opens Doors

2,700+

organizations are using Appian to accelerate their digital transformation.

Appian Certified Pays

10%
higher salary

Appian Developer careers enjoy higher salaries than other low-code platforms.

Top organizations utilize Appian.

Deloitte.

You will get **paid** during your training period. This means that you can focus 100% of your energy on gaining skills.

We place you.

Once you are upskilled and ready to storm, we **place** you with one of our client Fortune 500 clients where you put your skills to work.

TESTIMONIAL

"Skillstorm gave me the tools I need to learn new programming skills quickly and effectively. Their training provided the hands on experience I needed to bring Appian projects to life in the real world. I am now working at PwC, using my new found skills to develop web applications using Appian."
